

CENTRO DE  
**MATEMÁTICA**  
UNIVERSIDADE DO PORTO

# CMUP Informal PhD Seminar

2021/2022 - **SESSION 1**

DATE: **WEDNESDAY, OCTOBER 13, 17H00**

PLACE: **ROOM 0.06** (BUILDING FC1, FCUP)

PROGRAM:

**17h00** - André Carvalho (UC|UP):

*Endomorphisms of groups...again.*

**Abstract:**

In this talk we will discuss some problems on endomorphisms of groups with special focus on the relation between two apparently distinct properties: bounded cancellation and preservation of a coarse median. If time permits, dynamics at the infinity of endomorphisms of free-abelian times free groups will also be considered.

**17h50** - Coffee Break
