CMUP Informal PhD Seminar 2022/2023 - **SESSION 2**

DATE: **MONDAY, NOVEMBER 14, 17H00**

PLACE: **ROOM 004** (BUILDING FC1, FCUP)

PROGRAM:

17h00 - Pedro Ribeiro (PIUDM):

A Lemma connected with special functions with two indices

Abstract:

In this talk we present some lemmas concerned with a recent work about zeros of shifted combinations of completed Dirichlet series.

We will indicate how the nature of these results is essential to motivate our recent study of a new family of special functions attached to two indices.

17h50 - Coffee Break
